Property Styling - Price Guide

Our property styling prices are based on the size of your property, its accessibility, and the level of staging required to meet your brief and budget. We tailor packages to suit your expectations, budget, and timeline.

Home staging is a modest investment compared to the potential increase in sale price a well-presented home can achieve.

The prices below are a guide only; a precise quote will be provided before engagement. All prices include GST. The hire period is 8 weeks.

If cashflow is a concern, we have a relationship with a 'buy now, pay later' financier, Elepay, who can offer 180-day payment terms.
